

JOE FRANCIS SILVERIO

San Jose del Monte, Bulacan, Philippines • +63 994 590 2095 • joe francis.silv@gmail.com
<https://silv-error.github.io/portfolio/>

Profile Summary: IT student pursuing a Bachelor of Science in Information Technology with practical experience in networking, software development, and cybersecurity. Skilled in Cisco IOS configuration and troubleshooting through hands-on training. Contributed to the Software Development team at First City Providential College (FCPC), working on collaborative projects that strengthened my programming and development skills. Active participant in Hackathon and Capture-the-Flag competitions, demonstrating strong problem-solving abilities, teamwork, and cybersecurity knowledge. Eager to apply technical expertise and a continuous learning mindset to real-world IT challenges.

EDUCATION

Bachelor of Science in Information Technology

Expected Graduation: May 2026

First City Providential College

Completed comprehensive coursework in software development, web technologies, networking, databases, and system administration. Developed practical skills through team-based projects, hands-on labs, and real-world problem-solving activities.

Technical Vocational Livelihood Track Information and Communications Technology Computer Programming Strand

July 2026

First City Providential College

Completed comprehensive coursework in software development, web technologies, networking, databases, and system administration. Developed practical skills through team-based projects, hands-on labs, and real-world problem-solving activities.

SKILLS

Programming: Python, JavaScript (Node, React, Express), RESTful APIs, MongoDB, SQL

Networking: TCP/IP, Routing & Switching, Cisco IOS configuration & troubleshooting, Security

Software: Git/GitHub, Bash/Shell, Burp Suite, Wireshark, Linux, Windows

Languages: Filipino, English

EXPERIENCE

Member of FCPC/CSS Extra-curricular Software Development Team

Nov 2024 - Present

FCPC College of Computer Studies

Collaborate with a team of developers to design, develop, and maintain software projects beyond the academic curriculum.

CERTIFICATES

CNA CTF Champion

Jan 2026

Cisco CCNA Capture-the-Flag Competition 2026

Certificate of Appreciation

Nov 2025

NextGenPH: Youth Innovators Reimagining Public Service Contest

Certificate of Appreciation <i>AI Hackathon - Cyber Defenders</i>	Oct 2025
Certificate of Accomplishment <i>REST API</i>	Oct 2025
CCNAv7: Introduction to Networks <i>Introduction to Networks</i>	March 2024

PROJECTS

Peekabook

An OSINT (Open Source Intelligence) tool that extracts real Facebook names from shared reel or post links. Demonstrates information gathering techniques for security assessments and digital investigations.

Technologies: Python, Burp Suite

Packet Sentinel

PacketSentinel is a proof-of-concept Python tool that demonstrates simple packet-rate based blocking. It uses Scapy to sniff IP traffic, computes per-source packet rates (packets/second). This project is intended for educational and lab use only.

Technologies: Python, Scapy

Smart Solar Power Monitoring (Website & Mobile)

Developed a smart solar energy management system that monitors battery levels and automatically distributes electricity into 4 sections to optimize power usage. The system prioritizes critical loads and sheds non-essential sections as the battery level decreases, ensuring efficient energy utilization.

Technologies: Node.js, Express.js, React.js & React Native, Expo, Supabase

EXTRACURRICULAR ACTIVITIES

Cisco CCNA Capture-the-Flag Competition 2026 <i>Cisco Networking Academy</i>	Jan 16, 2026
--	---------------------

Our team emerged as the champion in the CISCO Networking Academy Capture-the-Flag competition, showcasing strong skills in network security, problem-solving, and practical cybersecurity challenges.

AI Hackathon - Cyber Defenders <i>HexcoreLabsPH</i>	Oct 26, 2025
---	---------------------

Participated in AI Hackathon by Hexcore Labs PH at the Asian Institute of Management, developing an automation tool to protect Gmail from malicious emails, demonstrating skills in cybersecurity and AI integration.

NextGenPH: Youth Innovators Reimagining Public Service Contest <i>Development Academy of the Philippines</i>	Nov 11, 2025
--	---------------------

Developed a mobile application recommending nearby tourist spots using AI-driven personalized suggestions, demonstrating skills in mobile development, AI integration, and user-focused design.
